

RELAXED WEDDING PHOTOGRAPHY

GROUP SHOT EXAMPLES

Each group shot can take anything between 4-8 minutes to set up and get everyone organised so keep this in mind as we may need to add more time in for group shots which may take away from another part of the day. For bigger group shots with all guests for example, this can take anything between about 10-15 minutes to set up. In total, I would recommend sticking to no more than 10 formal group shots.
